Technology That Connects

How To Control and Connect Systems and SAP Processes from End to End

Many processes are planned in your SAP environment, but at crucial points they can reach their limits. This is where XFT's Core Products and Tools come in. They enable you to link your SAP system with other applications. What's more, you can control cross-departmental business processes, such as obtaining approvals or posting documents in the system, from end to end.

We are constantly expanding our portfolio of Core Products to suit the actual needs of our clients.

With the XFT Core Products and tools, you can:

⊘ Link your processes to a document manager and thus work more efficiently.

⊘ Significantly increase the speed and flexibility of approval processes.

⊘ Automatically generate Microsoft Office documents from your SAP data.

⊘ Gain an overview of the information and processes in your SAP system.

Document and file management in SAP

The basis for better processes

Lay the foundation for comprehensive, end-to-end information in your SAP environment with XFT's Core Products and Tools. They enhance your familiar system environment with convenient functions, while forming the basis for our specialist application products.

XFT Task Manager

Control your processes based on digital files.

- Combine document and process management.
- Import files and e-mails from Windows environments.
- Extend workflows flexibly.

XFT Compliance Cycle

Easily customize and create your own approval processes.

- Automate approval processes.
- Define individual process routes.
- Document every step in line with legal requirements.

XFT Queue Manager

Handle background processes consistently, reliably, and transparently.

- Make background processes more efficient.
- Ensure system availability.
- Reduce error rate significantly.

XFT Document Composer

Create documents automatically with Word, Excel or PDF - based on your SAP data.

- Create documents in a secure SAP process environment.
- Avoid external steps and switching between systems in daily work.
- Create new templates easily.
